

The Harmony

Effective theater seating is a perfect blend of aesthetics, luxuriating comfort, and functionality. That is the principle we follow in building all our theater seating from the most reasonably priced to the most exclusive. A theater chair can be as much an expression of the customer's inner self as any of the other elements of the theater. Customers are well advised to take time when considering their choice.

Features & Benefits

Ultracel Foam – the best quality foam available; more polymers, less air. Eliminates the pancake effect of less dense foam.
Eco-friendly – no fluorocarbons used in manufacture.

Wood Components – bolted rather than nailed, stapled, or screwed.

Kiln-dries Nordic Birch Ply – 50% stronger than standard ply. It doesn't warp, swell, or shrink overtime. Guaranteed long life.

Craftsmanship – every chair is built by hand to exacting standards.
